

Upcoming works near Drax – October 2026

As a neighbour of our EGL2 project area, we are writing to inform you that we are carrying out construction works near Drax.

This will involve Main Road being closed to traffic while we carry out this work.

Works are expected to start on **Monday 19 October** and continue for approximately **one week**. A signed diversion route will be in place via New Road and Carr Lane.

We will be installing bellmouths – bell-shaped entrances that allow construction vehicles to safely enter and leave work areas from public roads.

The bellmouths will be installed for our haul road just off Main Road.

The haul road – a temporary road for transporting materials, machinery and people during construction – will facilitate the installation of cables and the delivery of resources along the wider cable route.

You may also notice an increase in construction traffic and some noise during working hours. We know this may be disruptive and we will do all we can to reduce the impact.

The works to install our underground cable are being led by our contractor partner:

EGL2 Yorkshire Local Community Fund

The EGL2 Yorkshire Local Community Fund is now open for applications.

Our fund supports impactful projects in communities near to our EGL2 project in Yorkshire, with grants available across a range of areas.

For more information and to check eligibility please visit:
